3. **UNSPLASH** : http://unsplash.com

4) Icons Source

1. **FLATICON** : http://flaticon.com
2. **SHUTTERSTOCK** : http://www.shutterstock.com

LAYER STRUCTURE

These PSD files are Easy to custom, Well Layered and properly named. The screen in the right side is the Layer Structure for Homepage Theme:
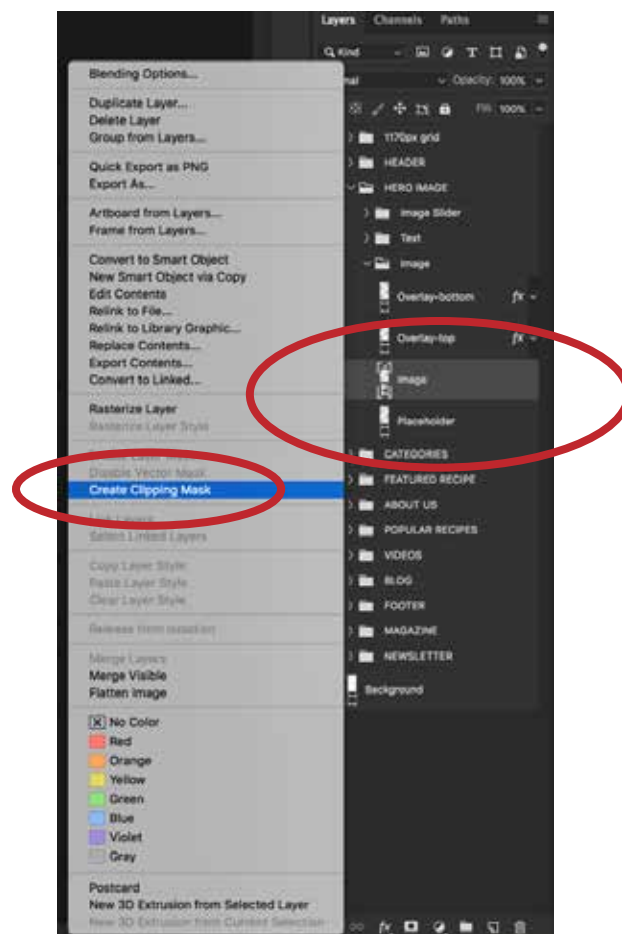

This theme is based on 1170px grid and have Header and Footer in every page.
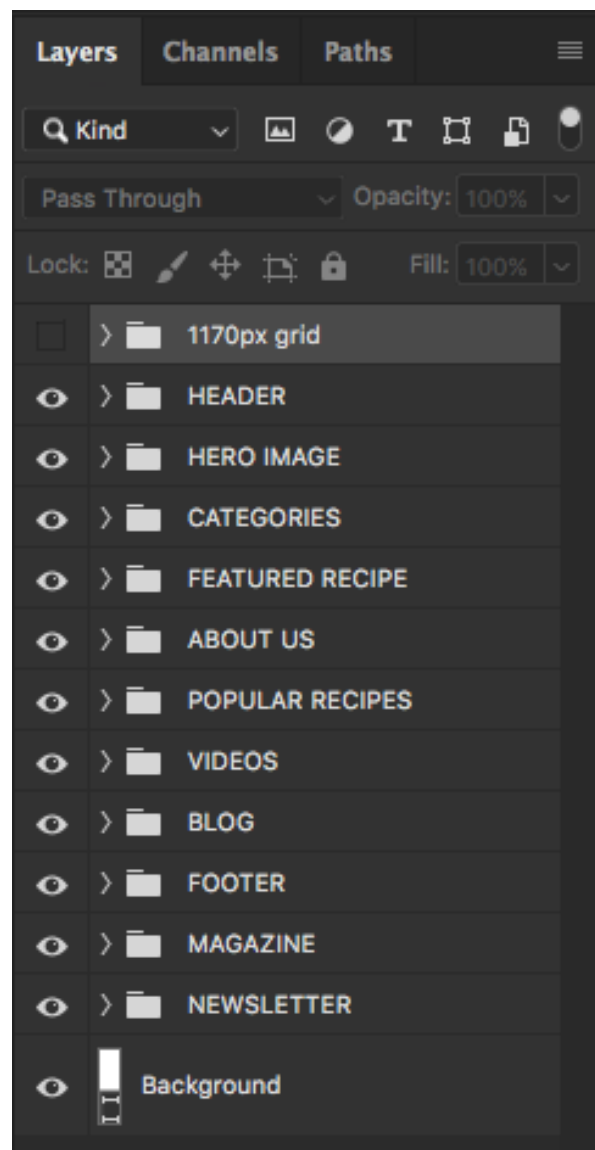

HOW TO INSERT IMAGE INTO THE CLIPPING MASK?

You can easily drop your image on top of Layer that says "**Placeholder**". For example, I drop Image at the top of Image holder (see the picture).

After that, right click in the Background-image and choose **Create Clipping Mask**.

After click the **Create Clipping Mask** button, you should have the layer structure like this. See the red rounded sign in the image.
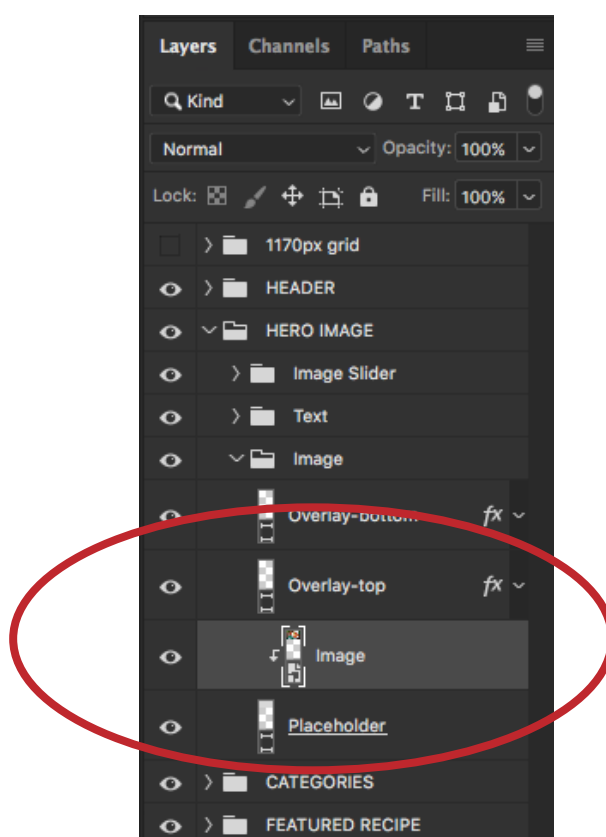

6) Support Page

Need Support? Visit our support page :

Once again, thank you so much for purchasing this psd template. As I said at the beginning, I'd be glad to help you if you have any questions relating to this theme. No guarantees, but I'll do my best to assist.

If you have a more general question relating to the themes on ThemeForest, you might consider visiting the forums and asking your question in the "Item Discussion" section. If you like it.....Love it...Buy it...Don't forgt to Rate it...that ll help me a lot.

Thank You!!

Peterdraw
